DESIGNING AND MANUFACTURING
OUR PRODUCTS SINCE 1962 WITH
THE PASSION AND QUALITY THAT HAS
ALWAYS DISTINGUISHED US, LOOKING
TO THE FUTURE.

WE ARE A COEXED TEAM THAT ACHIEVES GOALS AND MEET CUSTOMER NEEDS THANKS TO INNOVATION AND QUALITY.

NUOVA SAIMPA, since 1962, operates in the production of items in thermosetting and thermoplastic material by injection molding, with specific focus on the market of knobs and handles for appliances.

The characterizing element of the company lies in the continuous pursuit of customer satisfaction, in terms of product and service, through an approach that promotes innovation, growth and improvement by focusing attention on health and worker safety.

MISSION

We set ourselves the goal of being recognized by customers not as a product supplier, but as a partner able to create added value.

ATTENTION TO QUALITY, CONSTRUCTION OF A MUTUAL TRUST RELATIONSHIP WITH CUSTOMERS, PREVENTION OF ACCIDENTS, INJURIES AND PROFESSIONAL DISEASES, DETERMINATION, CONTROL AND REDUCTION OF SIGNIFICANT

ENVIRONMENTAL IMPACTS ARISING FROM THE ACTIVITY CARRIED OUT AND PROGRESSIVE IMPROVEMENT OF PERFORMANCE, TECHNOLOGICAL INNOVATION, PARTNERSHIP AND MUTUAL COLLABORATION WITH SUPPLIERS, ATTENTION TO THE GROWTH AND SATISFACTION OF STAFF, PHILOSOPHY OF CONTINUOUS IMPROVEMENT, COMMITMENT TO RESPECT THE APPLICABLE LAW AND ALL APPLICABLE REQUIREMENTS

VISION

Every mid-high range appliance on the European market should have Nuova Saimpa knobs and handles

WHAT DO WE PRODUCE?

KNOBS AND DIALS IN PLASTIC MATERIAL, MAINLY THERMOSETTING BUT ALSO THERMOPLASTIC.

These products can be supplied in different finishes: Painted (glossy, opaque, soft touch), treated in galvanic bath (polished / satin chrome, polished nickel, antique brass, etc.), in different colors and basic mold finishes (glossy, embossed, sandblasted and oiled, etc.)

KNOBS AND DIALS IN METALLIC MATERIAL:

zamak, aluminum, steel, brass also with different finishes: Treated in galvanic bath, anodized, with concentric or longitudinal satin finish, with protective paint

HANDLES SUITABLE FOR DIFFERENT APPLICATIONS: ovens, refrigerators, hoods and small appliances.

The materials used are thermosetting plastic and metal, used singly or in combination with each other.

It is possible to produce handles in different finishes, from brushed steel to soft touch, from aluminum to brass.

It is possible to make a finished product by combining components of different materials and finishes by gluing or mechanical assembly.

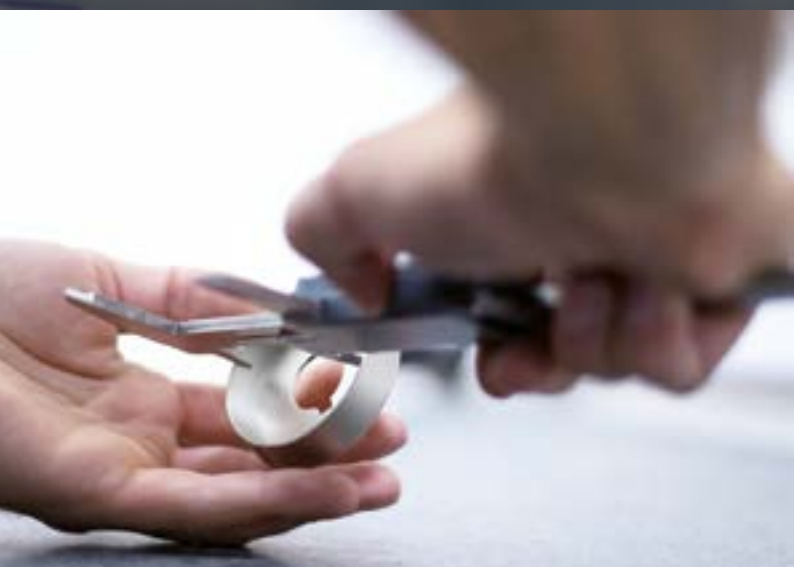

We produce also parts for other commodity sectors.

All our products can be provided with screen or pad printing upon customer request.

**THE CERTAINTY
OF WORKING
WITH THE RIGHT
PARTNER**

NUOVA SAIMPA CONSIDERS QUALITY A KEY ELEMENT OF ITS BUSINESS STRATEGY. QUALITY MAKES IT POSSIBLE TO PUT INTO A VIRTUOUS PROCESS ABLE TO ANTICIPATE EVENTS IN THE MARKET AND SATISFY THE CUSTOMER'S EXPECTATIONS, THUS HELPING TO IMPROVE THEIR PRODUCTS

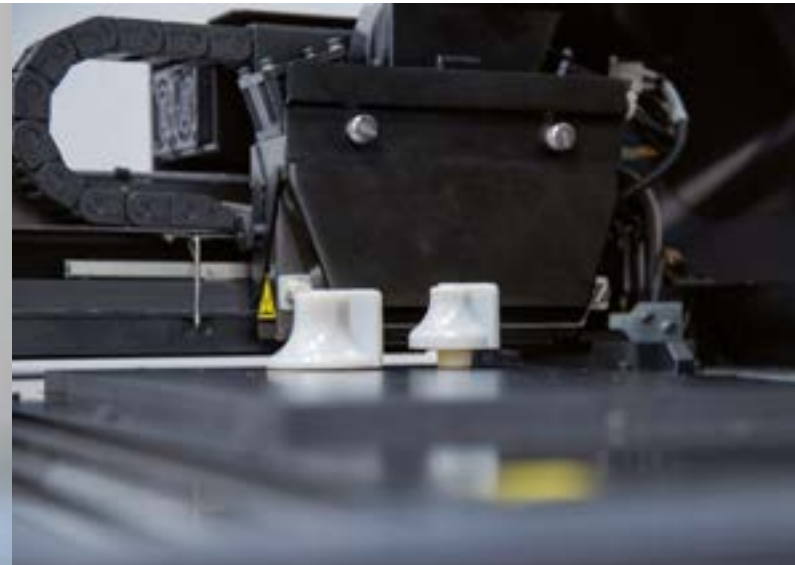

SERVICES AND TOLL MANUFACTURING

PRECISION OPTICAL MEASUREMENT

We have an advanced optical measurement system that can detect dimensions with an accuracy of 0.1 micron. We are able to provide extremely accurate and repeatable measurement reports over time.

3D PRINTING (PROTOTYPING)

We can make prototypes of finished products through 3D printing without the need to build pilot molds. The print resolution is 28 microns and the maximum dimensions are 29 x 19 x 15 cm..

SCREEN AND PAD PRINTING

We perform screen and pad printing on any type of material and finish. We have 7 screen printing machines for printing on cylindrical or conical pieces with diameters from 20mm to 75mm; 2 screen printing machines for printing on flat surfaces up to 150mm; 3 single-color pad printing machines for prints up to 70mm; a 4-color pad printing machine for more complex prints

**SUSTAINABILITY
PROJECT
WITH TERRA
INSTITUTE**

SUSTAINABILITY FOR NUOVA SAIMPA MEANS:

Commitment to reducing negative externalities, respecting the environment in the round, helping to create a vision for a better future that meets people's needs, pay attention to others, guarantee benefits for all (today and for future generations) and, finally, it favors the management of a healthy and prosperous economy.

Both in the strategic vision and in the everyday activities we have chosen to promote sustainability through the commitment and development of these relevant issues for us:

GOVERNANCE AND LEADERSHIP

ORGANIZATION, COMMUNICATION
AND COLLABORATION

EQUITY, RELATIONSHIPS AND
COMPANY CULTURE

WELLNESS AND HEALTH

PARTNERSHIP AND CO-DESIGN

ENERGY, EMISSIONS AND WATER

WASTE REDUCTION

SUSTAINABILITY OF THE VALUE
CHAIN
